The Importance of a Governance Framework

Effective Boards of Education have a governance structure that is designed to result in strong decisions that flow from a strategic direction supported by quality information and public transparency. This clear governance framework, based in research*, has been used to establish the Board’s annual work plan and is designed to demonstrate to the public how the work of the Board supports these principles.

In a broad sense, the Board of Education, working hand in hand with the superintendent and district senior staff, accomplish their work in the following ways:

- Setting the strategic direction in the context of the district and province;
- Monitoring the performance of the system and adjust plans as necessary;
- Attending to both internal and external compliance and accountability;
- Engaging effectively with stakeholders and the public and operate on a basis of transparency; and
- Advocating for public education locally and provincially.

In our annual work plan, the activities of the Board, both annual and emergent, are identified for the coming year as a way to communicate the work of the Board and as a way to operate on the basis of transparency.

In each month, the work of the Board is aligned to the governance framework above. While many issues overlap, the broad categories operate as an efficient and effective organizer for the work of the Board.

Board’s Vision and Goals

Annually, the Board refines and establishes its goals. These goals support the overall district vision of Learning by Design which states that:

“We prepare our learners to think creatively and critically, communicate skillfully and demonstrate care for self and others.”

We realize this vision through:

- Supporting the design of engaging learning environments for all students.
- Operational efficiencies that prioritize resources to directly support learning.
- Relationships with community partners to broaden opportunities for students.
- Advocacy for necessary facilities and resources.
- Supporting schools and workplaces that are safe and caring for all.
From Governance and Goals to a Strategic Annual Work Plan

As part of effective governance, each year our Board of Education identifies a strategic working plan for the year ahead. This work plan is tailored to the specific events and issues that are on the Board’s horizon in the coming school year while attending to the ongoing governance and compliance issues that are annual in nature.

Our district vision is realized by a focus on priority practices. These practices guide our support of schools and our pursuit of engaging learning environments.

Annual Work Plan

The annual work plan is broken into the categories of governance as indicated above in the framework. In addition to the framework, and the annual work plan, each month the Board engages in in-service and professional development activities to both inform the Board in a deeper way about the monthly governance work, but also as a way to answer detailed operational questions that support individual trustees in their work.

These monthly in-service opportunities are an important supporting structure for the Board’s work. These sessions help deepen the Board’s understanding of operational issues while allowing staff to address any questions or issues that the Board may have in the many areas that make up Surrey’s educational and business operations. In each month of the year, there is generally a theme for the work and the in-service opportunities are intended to align with those themes.

Our priority practices guide our vision for learning. They are:

- Curriculum Design
- Quality Assessment
- Instructional Strategies
- Social and Emotional Learning
Below is a guide to interpret the Governance Framework

**BOARD’S GOVERNANCE ACTIVITIES**

- Strategic direction and context
- System planning and performance monitoring
- External compliance and accountability
- Engagement with stakeholders and public recognition events
- Advocacy for public education and provincial liaison

**These sections of the annual work plan, aligned with strong governance themes, will be populated with the monthly and ongoing activities of board governance.**

**TRUSTEE PROFESSIONAL DEVELOPMENT IN-SERVICE**

The ongoing work of the Board is supported by targeted regular in-service and professional development. These activities are listed in this section of the annual work plan and are intended to support the governance activities in that current month.

It is important to note that at each monthly public board meeting, trustees report out on a range of activities including the numerous public committees and events in addition to updates on budget and capital. This framework does not reference those routine communications as part of the regular board meetings. Most specific are the “Progress Report on Active Capital Projects” and the “Board Report” which are highlighted every month.

- Board’s strategic planning time – looking back and making revisions for the year ahead
While there are no formal public board meetings in the summer, the school district remains very active. Our summer school programs are in full operation with approximately 12,000 students and we have numerous other learning activities underway.

The Board of Education continues to be deeply involved and as necessary is consulted on decisions that need to be made on critical issues that emerge. For example, hiring decisions still happen, local and provincial outreach continues and media interactions occur.

Each year, there are both advocacy and governance activities that occur over summer. Again, while public meetings are in abeyance over summer, the work of the Board and our educational programs continue under the guidance of the Board and staff.

The end of August formally starts the beginning of a new school year with the board attending the administration meeting in late August.
