

Mary Jane Shannon GLIDE Academy

GLIDE (Guided Learning Instrumental to Dynamic Enrichment) Academy started in October 2014 at Mary Jane Shannon Elementary to provide extended learning and guidance to students in need of extra support. GLIDE is aspiration-based, expanding horizons for identified vulnerable students by exposing them to a wide variety of career options, providing opportunities to explore and build life and job-ready skills. .

The GLIDE Academy after-school program surrounds students with positive role models who focus on strength-based approaches that facilitate academic achievement, increased leadership abilities, and healthy social development.

Participating students receive value added time to their school day through the introduction of unique and fun educational activities, relationship development opportunities and academic support in a safe caring and supportive learning environment.
