DRAFTING/CADD CITATION IN CADD TECHNOLOGIES

A partnership between

**Kwantlen Polytechnic
University**

And

Career Education Department

Are you interested in a Computer Aided Design and Drafting (CADD) career?

JOB DESCRIPTION

The jobs in this field vary depending on the specialty diploma option you choose after completing the citation.

Architectural - create 3D models and 2D drawings for residential, commercial and government buildings. Jobs can be found in architectural design offices, manufacturing companies, construction companies and municipal offices.

Structural - create 3D models and 2D drawings for steel, concrete, and wood structures. They also prepare site drawings. Jobs can be found in engineering offices, steel fabrication shops, and highway, railway and marine facilities.

Mechanical - create 3D models and 2D drawings that detail industrial layouts such as conveyors and process piping, and manufacturing information for component assemblies and details. Jobs can be found in engineering firms, product design companies, construction companies or in fabrication shops.

Other Specialties - Electrical, Industrial, Manufacturing and Civil.

CONNECT TO POST SECONDARY

Through the Drafting/CADD Program you have the potential to earn both high school and post-secondary credits.

COURSE CREDITS

- PSIJ 12A
- PSIJ 12B
- PSIJ 12C
- PSIJ 12D

Students complete one course per semester. The third course is completed in the second semester through a challenge exam. The fourth course takes place as an “intersession”. See below.

PROGRAM LENGTH

- September to June
- September – May: 2 nights a week, Tuesday AND Thursday, 4-7 p.m.
- May – June: 1 night a week, Tuesday OR Thursday (TBD), 4-10 p.m., plus online component

COSTS (Paid by the Student)

- Textbooks and online resources (approx. \$125)

PROGRAM DESCRIPTION

The Citation incorporates the CADD Core that prepares students for the Specialty semester. Courses completed include the following. They correspond with the PSIJ course credits:

CADD 1100	Drafting Fundamentals
CADD 1150	CAD Computer Aided Drafting
CADD 1160	Office Procedures & Software
CADD 1110	Summative Projects

The Computer Aided Design & Drafting (CADD) program is designed to develop and enhance practical skills; increasing students' knowledge for a successful CADD career. Throughout the program students will design and draft various projects that are produced in digital and physical models. Students will obtain extensive experience utilizing AutoCAD and BIM software.

Services provided through funding arrangements with the Surrey School District Career Education Department.
