

March 30, 2020

Dear Coast Meridian families,

Even though our doors are not open, our students and families are in our hearts and minds! We hope that your families are all doing well and healthy. We know these are uncertain times and we want to reassure you that health and safety and the education of your children continues to be a priority for us.

School sites are closed at this time for students and the community, as we are following health guidelines. There is no access to the school at this time. If you need to contact the school, you can contact us by emailing coastmeridian@surreyschools.ca with your question or request. Please leave your name, child's name and your contact phone number for follow up to your question. The school website will be kept up to date with relevant information and teacher contact information.

Our primary goal for this week is opening the lines of communication. Teachers will connect with families during the week through Freshgrade or email, and learning activities will follow. We ask for your patience during this transition as this is new for everyone. We also ask that you check your email and phone messages, and respond to teachers so they know you have received the information. If you have changed your contact information recently, please email the school with your new information.

If you have not done so already, please click [here](#) to view the message sent out to parents last Friday by our district school superintendent, Dr. Jordan Tinney. Take care of yourselves, your families, and stay safe.

Mrs. Shelley Stark
Intern Principal
Coast Meridian Elementary
