

ENVER CREEK GENERAL SCHOOL FEES 2018-19

Instruction is provided free of charge to all students registered in a school's education program sufficient to meet the general requirements of graduation, and it shall provide free of charge any resource materials necessary to participate in that program. The School Act permits the charging of fees for certain items. In Surrey secondary schools, the following structure applies through Board Policy 9802 related to fees and any costs for students or families. Students will need to provide their own basic supplies and equipment for their own personal use such as paper, writing tools, calculators, notebooks, gym attire and sewing kits, and some other items needed for various electives. Workbooks may be provided to students on loan, or they may be purchased for personal use. Students can also elect to purchase other support materials (professional resources including practice examinations) through their teachers. Some courses such as Home Economics and Woodwork provide students with the option of using different or better quality materials, which may be brought from home or purchased from the school at cost. Some courses, such as AP (Advanced Placement), offer optional certifications or external examinations for which there are charges. If you wish to discuss the implications that these charges may have on your son or daughter, please contact our school administration.

The fee represents cost recovery only.*

Replacement Charges

Students will be assessed a charge for lost or damaged school property (textbooks, uniforms, library books, etc.) Charges will be based on the replacement cost of the item. Students are expected to return the same textbook they are issued so it is important to label your text with your full name and pupil number, and avoid lending textbooks to other students.

School Supplies

As each student will have a different schedule and different teachers, we do not provide a list of required school supplies. If you wish to purchase some items prior to the start of school, the following are general supplies used for most classes:

3-ring binders (approximately 1 ½")	Ruler
Supply of loose-leaf paper	Glue Stick
Index dividers	Pens, pencils, erasers
USB flash drive	Pencil crayons

Please do not purchase a calculator until your child has spoken with his/her Mathematics teachers. Teachers may have specific requirements for each class and will advise students of those items during the first week of school.

Materials Consumed in a Course

In courses that consume materials (e.g. art, cooking, woodworking, metalwork, science) schools can only charge for materials or goods that are surplus to what would be necessary for the student to meet the expected outcomes in a course. If a student is going beyond the basic requirements of a course and creating projects for personal use (e.g. creating a table of mahogany rather than plywood), then the student may bring their own materials from home or the cost for the materials for these enhanced projects may be recovered through a fee.

Field Trips

Students may be charged a cost for expenses such as transportation, accommodation, meals, entrance fees and equipment rentals for optional field trips, or other extracurricular outings or events. Students will not be charged for any field studies/field trips where attendance is mandatory as part of a course or program.
