Digital Yearbook Signatures:

We recognize that COVID-19 has resulted in a lot of changes for all of us and will impact our ability to sign and share memories like we normally would.

Our yearbook company has created a digital way to sign each other's yearbook! Here you can share the link with others who will be able to simply click on one of the boxes already created and write their message. These pages can be saved digitally or printed out. Anyone can do this, regardless if they have purchased a yearbook. Click the link below to see the instructions and to start collecting signatures and memories.
