

Grade 9 - Core Competencies/Careers 9

Core competencies are evident in every area of learning; however, they manifest themselves uniquely in each discipline. Competencies come into play when students are engaged in “doing” in any area of learning. This includes activities where students use thinking, collaboration, and communication to solve problems, address issues, or make decisions. The ultimate goal is for learners to employ the core competencies every day in school and in life, and for the core competencies to be an integral part of the learning in all curriculum areas.

At Semiahmoo Secondary, our goal is for students to include evidence of ‘doing’ core competencies, through their work in their classes and in their life, in their student portfolio in MyEdBC. Students will also participate in a series of speakers that will highlight key aspects of the personal and social core competencies. At the end of the school year, students will present their portfolio to a teacher. There is no mark for this Core Competencies Self-Assessment; however, it is mandatory for all grade 8 and 9 students.
