

Downloading eBooks in the Destiny Read App:

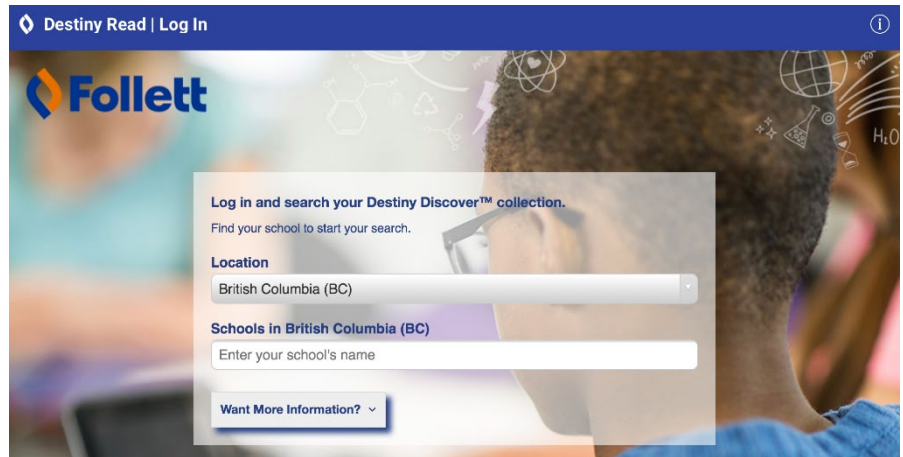

The **DESTINY READ** app is available on iOS and Android devices. It functions only as a bookshelf for Follett eBooks/Audiobooks, where users can access checked-out eBooks/Audiobooks or download them for offline reading. **EBooks/Audiobooks must be checked-out in Destiny Discover first.**

1. Download and install the **Destiny Read** app from the App Store on your iOS device.
2. Open the app.
3. Select your **location** (province) and **school**.
4. Login to your account using your personal **Surrey Schools username and password**.

*For password help, please talk to your school **Teacher Librarian**.*

5. The app opens directly to your Checkouts Bookshelf. You will only see existing checkouts.
The bookshelf does not refresh automatically.
Tap and drag the screen down to see newly checked-out items.
6. eBooks will download automatically to your device for offline reading. Click the **Open** button to view the book.
